Banasthali, Kathmandu-16, Bagmati, Nepal

OBJECTIVE

Computer Engineer, Educator, and Software Builder with 7+ years of experience in the capital market of Nepal, and hands-on exposure across IT and entrepreneurship. Focused on creating meaningful impact through technology by mentoring 900+ students, digitizing legacy transport operations, and building accessible solutions, guided by the principles creating impact wherever I go.

EDUCATION

- **Peking University HSBC Business School (PHBS)** *September 2026 – Present*
Master of Finance Shenzhen, China
- **Kathmandu University** *October 2018 – May 2023*
Bachelor of Computer Engineering CGPA: 3.54/4.00 Dhulikhel, Nepal
- **National School of Sciences (NIST)** *May 2018*
Higher Secondary Education (NEB) – Science GPA: 3.17/4.00 Lainchaur, Kathmandu, Nepal

PROFESSIONAL EXPERIENCE

- **Basuki Transport Private Limited** *November 2025 – Present*
Software Engineer Kalanki, Kathmandu
 - Architecting **BasukiMS**, a scalable enterprise Fleet Resource Planning (FRP) platform that modernizes transport operations through workflow automation and digital transformation.
 - Designed a fine-grained **Role-Based Access Control (RBAC)** framework with multi-tenant authorization, secure authentication, and permission-based resource access.
 - Led the conceptualization and implementation of **GatiAI**, an AI assistant powered by the **Qwen** LLM to enhance operational efficiency and decision support.
 - Built modular backend services for fleet, trip, finance, compliance, notification, and customer management following enterprise software architecture and clean design principles.
 - Implemented secure APIs, comprehensive input validation, auditing, logging, and security best practices to improve system reliability and maintainability.
 - Developed and maintained the official corporate website, **www.basukitransport.com**, ensuring responsive design, performance, and production deployment.
- **Herald College Kathmandu** *August 2025 – Present*
Final Year Project Supervisor Naxal, Kathmandu
 - Supervised 14 Bachelors in Information Technology (Hons) students, guiding them through the complete lifecycle of their Final Year Projects.
 - Mentored students on industry-relevant skills and practices, focusing on making them market-ready and job-ready.
- **Iruka Technologies Private Limited** *February 2023 - January 2026*
Co-founder and CEO Remote
 - Led the product vision and business development research for **Aroma**, designing a comprehensive business model and commercial strategy.
 - Designed the Proof of Concept (PoC) for **NEXUS**, which has now been developed into a State-of-the-Art warehouse automation system.
 - Worked as a backend developer, designing the APIs that power the platform's functionality and data integration.
 - Solely managed company-wide accounting and legal compliance, establishing robust financial frameworks and revenue structures.
 - Managed all Human Resources functions, leading team recruitment and defining operational protocols for the organization.
 - Developed a custom CMS webapp for **Aashirbad Group**, one of Nepal's largest exporters, helping them increase their digital presence.

TEACHING EXPERIENCE

- Herald College Kathmandu, University Of Wolverhampton**
Teaching assistant
 - Mentored BSc (Hons) in Computer Science students 2.5-year tenure, providing technical guidance and academic support across multiple IT modules.
 - Taught "Introduction to Object-Oriented Programming" and "Object-Oriented Design Programming," strengthening students' proficiency in Java.
 - Facilitated the "Collaborative Development" module, simulating professional Agile environments where students simulated Scrum workflows using tools like Jira.

October 2023 - February 2026

Naxal, Kathmandu

PROFESSIONAL ASSOCIATIONS

- Nepal Engineering Council**
Registered Computer Engineer in the national body governing the engineering profession.

April 2024

PROJECTS

- Dhewaa: Personal Finance Management System**
Tools: Node.js, Express, TypeScript, PostgreSQL, React, React Native
 - Developed Expense Tracking and Loan Management modules for comprehensive financial oversight, enabling users to monitor incomes, manage installments, and settle multi-party accounts.
 - Built dynamic financial reports with customizable date filters, category breakdowns, and instant PDF export.
 - Created a feature, **Document Vault** for digital asset organization, ensuring seamless storage, synchronization, and retrieval of legal, academic, and medical documents.
 - NepseBot: Nepse Data Scraper**
Tools: Python, Selenium, BeautifulSoup
 - Developed a terminal-based CLI application using Python and Selenium to automate the retrieval of daily floorsheets, date-wise floorsheet, dividend history, and live stock prices.
 - Engineered robust scraping pipelines with BeautifulSoup to parse publicly available financial data.
 - Scholarr: Learning Management System**
Tools: MongoDB, Express.js, React.js, Node.js
 - Implemented secure authentication and authorization using JWT, ensuring protected API routes and safe session management for all users.
 - Established the project architecture and developed the Todo management module, enabling students to efficiently track and organize their learning tasks.
 - Web Application: Leo District Council 325B1, Nepal**
Tools: MongoDB, Express, NodeJS, ReactJS
 - Led the development lifecycle as Project Lead, coordinating team workflows and ensuring the timely delivery of the platform.
 - Integrated the Esewa payment gateway to facilitate secure digital donations, handling transaction verification and automated payment status updates.
 - Implemented authentication with basic authorization to manage secured access across the application.

October 2025 - February 2026

2023

2020

2021

SKILLS

- Programming Languages:** TypeScript, JavaScript, Python, Java
- Web Technologies:** HTML5, CSS3, JavaScript, TypeScript, REST APIs
- Database Systems:** PostgreSQL, MySQL, MongoDB, Redis
- Data Science & Machine Learning:** Python, Pandas, Web Scraping (BeautifulSoup, Selenium)
- Cloud Technologies:** DigitalOcean, Vercel
- DevOps & Version Control:** Docker, Docker Compose, Git, GitHub
- Specialized Area:** Backend Engineering, Microservices Architecture, System Design, Project Planning
- Other Tools & Technologies:** Postman, DBeaver, Swagger, Jira, Figma

LEADERSHIP EXPERIENCE

- **IT Committee Chairperson** July 2025 - June 2026
Leo Multiple District 325, Nepal
 - Led the development and management of the Content Management System (CMS) based web application.
- **President** July 2019 - June 2020
Leo Club Of Kathmandu Swoyambhu Town
 - Established a library at Ram Shah Basic School, Gorkha.
 - Served the community during Covid-19 as part of the Covid relief program.
 - Conducted multiple blood donation programs.
 - Established a junior leo club, the Leo Club of Kathmandu Swoyambhu Town II Alpha

CERTIFICATIONS

- **HSK Level 2 (Chinese Proficiency Test)** 2026
Chinese Testing International (CTI)
- **HSK Level 1 (Chinese Proficiency Test)** 2026
Chinese Testing International (CTI)
- **Server-side Development with Node.js, Express and MongoDB** October 30, 2022
The Hong Kong University of Science and Technology, Coursera
- **HTML and CSS in Depth** 2023
Meta Front-End Development Course, Coursera

HONORS AND AWARDS

- **Region Co-ordinator Of The Year** 2022
Leo District Council 325 B1, Nepal
- **District President Appreciation Award** 2020
Leo District Council 325 B1, Nepal

ADDITIONAL INFORMATION

Languages: Nepali (Native), Chinese Mandarin (Beginner), English (Fluent), Hindi (Conversational)

Interests: Travelling, Playing Guitar, Reading Books, Trading
